Senator Bernadette Sanchez...

✔ Weakening environmental protection

✔ Weakening worker safety

✔ Weakening whistle blower protection
The Campaign for a Better New Mexico wants to know:

**Why is Senator Bernadette Sanchez endangering protections put in place for the health of all people by supporting SB 57?**

This bill is patterned after legislation from the American Legislative Exchange Council (www.alec.org), a Washington-based think tank funded by BIG INDUSTRY GROUPS.

**Senator Sanchez’s bill**

would take back the gains New Mexicans have won. It would:

- weaken environmental protection
- roll back safeguards for workers
- put whistle blowers at risk who courageously report on dangerous and unethical corporate behavior

Please call Senator Sanchez at (505) 986-4267 and ask her to withdraw SB 57, the Regulatory Process Task Force Bill.
